In "On the Face that Appears in the Moon," Plutarch explores the scientific and philosophical theories surrounding the mysterious lunar formations that have captivated human imagination for millennia. With his characteristic blend of erudition and wit, he examines the nature of the cosmos, the influence of celestial bodies on human affairs, and the role of reason in understanding the unknown.

"On the Fortune or Virtue of Alexander the Great" offers a nuanced examination of one of history's most iconic figures. Plutarch delves into the complexities of Alexander's character, his military prowess, and the impact of his conquests on the ancient world. Through a careful analysis of sources, he challenges simplistic narratives and presents a multifaceted portrait of a legendary leader.

In "On the Malice of Herodotus," Plutarch engages in a lively debate with the renowned historian Herodotus. With a keen eye for detail and a sharp wit, he critiques Herodotus's account of the Persian Wars, questioning his accuracy and uncovering potential biases. This dialogue showcases Plutarch's critical thinking skills and his commitment to historical truthfulness.
