The book is divided into four parts:

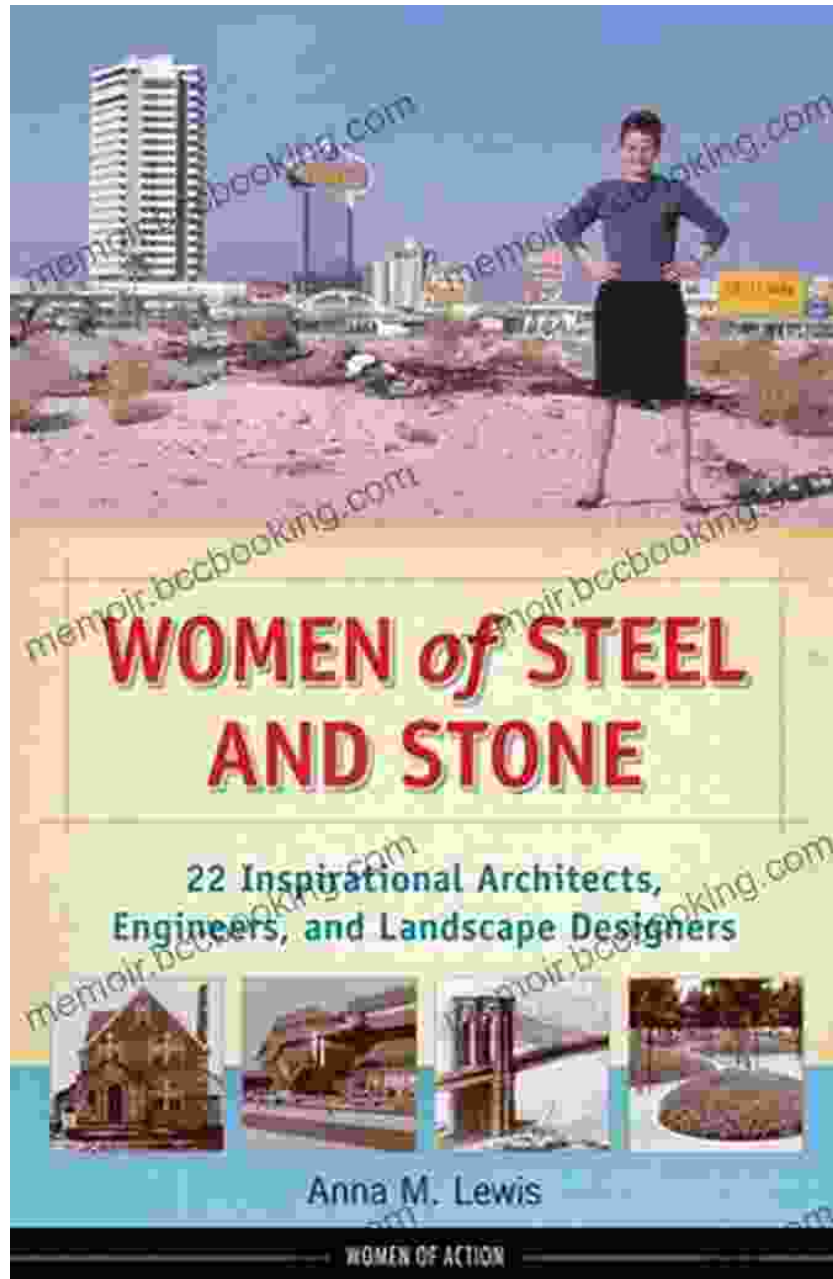

1. **The Pioneers:** This section tells the stories of the women who first entered the construction industry, in the early 1900s. These women faced tremendous challenges and discrimination, but they persevered and paved the way for future generations.

2. **The Builders:** This section profiles women who have worked in construction since the mid-20th century. These women have built bridges, skyscrapers, and other iconic structures. They have also fought for equal rights and opportunities in the industry.
3. **The Innovators:** This section highlights women who are using their skills and expertise to create new and innovative construction methods. These women are changing the face of the industry and making it more inclusive and sustainable.
4. **The Future:** This section looks at the future of women in construction. It discusses the challenges and opportunities that women face in the industry, and it offers a vision for a more equitable and inclusive future.

**Women of Steel and Stone** is an inspiring and empowering book that celebrates the contributions of women in construction. It is a must-read for anyone who is interested in the history of the industry, the role of women in STEM, or the future of construction.
